

LET'S TALK!

In cooperation with Gubra and Aarhus University we are pleased to invite you to join us for a free-of-charge half-day seminar on **diabetes & obesity research models**:

- Learn about the different models within diabetes & obesity research
- Get input on which research model to choose for your study
- Obtain information on genotypes & phenotypes
- Knowledge sharing on the care of such research models when it comes to housing, diet, enrichment, etc.

Keynote speaker is **Jutta Davidson, Charles River Laboratories**, Dipl. Biol., Research Models & Services Specialist: *Jutta is a Research Models and Services Specialist at Charles River where she has been employed since 2002. She is a scientific support for e.g. Charles River and JAX animals and has great experience in teaching various courses on education programmes, workshops, seminars etc. Jutta has studied biology and bioinformatics and she has a diploma degree in biology with focus on human genetics from the Friedrich-Alexander-University in Erlangen-Nürnberg.*

The seminar will be in English.

Join us for an exiting morning seminar

Tuesday 19 September from 09-12:00 at Gubra, Hørsholm

or afternoon seminar

Wednesday 20 September from 12-15:00 at Aarhus University, Aarhus

where we will treat you with light refreshments.
