

RESEARCH MODEL SEMINAR

1st Announcement: Book the Date!
Thursday 30 November 2017

The Jackson Laboratory, Charles River Laboratories and SCANBUR will together with LAS Education and Training Unit, Comparative Medicine, Karolinska Institutet host a free-of-charge seminar on topics such as efficient mouse colony management, genetic drift and how to minimize its impact on your research.

This seminar will take place on Thursday afternoon, 30 November 2017 at LAS Education and Training Unit, Comparative Medicine, Karolinska Institutet, Stockholm.

More detailed information and an official programme will follow shortly.

Continued Professional Development (CPD): This seminar is a CPD activity in laboratory animal science (LAS) recognized by the LAS Education and Training (E&T) Unit, Comparative Medicine, Karolinska Institutet. After the seminar is completed, participants will receive a certificate of attendance that will be authenticated by the LAS E&T Unit.

Book the date! We hope to see you there.

Kind regards,

Tine Larsen
